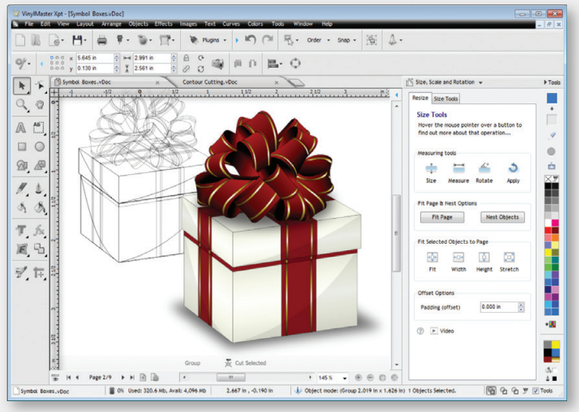
Powerful & Updated GUI – New DesignCenter™ and Color Tools

VinylMaster incorporates a logical and easy to follow layout with the use of a highly professional and modern User Interface along with fully anti-aliased graphics for the sharpest and clearest on-screen experience possible. VinylMaster now has Document tabs for easy navigation between open files. The workspace is customizable with User Modes, Hide/Reveal options, Custom Toolbars and the ability to switch off major toolbars with 1-Click, and with the new DesignCenter™ and Color Management tools – VinylMaster puts you well ahead of the competition!



DesignCenter™
A major development with groups of related tools now in an easy to use set of Tool Panels on the right side of the program for much easier and rapid design.

Object Manager
The Object Manager lets you select and move objects from page to page along with Z-order from a list. There's also a Page Thumbnails Viewer for visual and fast navigation and a visual Object Selector to easily select any object.

Property Inspector
VinylMaster's Property Inspector is a dynamic and editable list of all the Properties (settings/attributes) of the currently selected object(s), document, page and VinylMaster itself – an invaluable tool.

Layout Tools & Features
Laying out your designs is a breeze in VinylMaster which comes with an arsenal of align and distribution tools, dimensions, guides along with semi-transparent and adjustable rulers, plus step and repeat, tile and circle arrays.

RIP, Print & Cut

HUNDREDS OF MAKES AND MODELS* SUPPORTED

ARMS & Laser Pointer Cutter Support

VinylMaster Xpt includes a full-featured RIP meaning that you can use all of VinylMaster's powerful design tools and features along with the program's ai, eps, pdf and postscript import tools and then RIP, Print and/or Cut these out with your Large Format Printer or Printer-Cutter.

The VinylMaster RIP comes with a **Media Profile Library** with hundreds of Color Profiles and full .icc support. VinylMaster also comes with an all new and powerful **Contour Cutting Wizard** which supports most ARMS and Laser Pointer Cutters, along with specialist tools meaning you can print from the one device and then cut from another! or Print, Laminate and then Cut. Note: the RIP only comes with VinylMaster Xpt.

Major Features of the VinylMaster RIP include:

- Simultaneous Ripping & Printing
- Uses Multiple Multithreading CPUs
- Multitask Environment
- Job Queue
- Color Correction
- Soft Proof (Preflight)
- Nesting
- Optimal Packing
- Block Nesting (overnight printing)
- vMedia format with full .icc support
- Tiling & Mirror
- Registration/Crop Marks
- RIP Spooler & Manager
- Spot Colors
- Step & Repeat
- Layout & Compose
- RIP, Print & Cut (ARMS/Laser)
- Contour Cutting Wizard
- White Channel & Under Base
- TCP/IP, SCSI, USB support

Vinyl Cutting

5000+ CUTTER DRIVERS

Chinese Cutter Support ✓

Blade Compensation ✓

VinylMaster's cutting has been significantly improved with a new Auto-Cut feature for 2-Click Cutting along with all new Cutfile Documents that contain pages based on the media at the correct size, separated by color. Easily position/nest your artwork exactly where you want it cut. Add Weedboxes, Speed-weed™, Alignment and **Easy-Lift Marks™** etc. Plus you can save Cutfile Documents for later use and the original artwork remains completely unaffected.

The **Vinyl Spooler** manages your Cutfiles and lets you arrange, nest and optimize these along with managing all your devices and their settings – and installing a vinyl cutter is a breeze with the Setup Wizard.

Major Features of VinylMaster Cutting include:

- Contour Cutting (ARMS/Laser)
- Auto Color Separate
- Auto-Cut for 2-Click Cutting
- Cutfile Documents (saveable)
- Cut By Color/Object
- Production Queue
- View by Size/Color/Date
- Dimensions (dynamically update)
- Nesting & Optimize (save media)
- 5,000+ Drivers inc. USB Cutters
- Merge Colors
- Preview (Preflight)
- Step & Repeat (Copies)
- Crop Tools
- Tile Bleed (Overlap)
- Registration Marks
- Easy-Lift Marks™
- Speed-Weed™
- Simultaneous Cutting
- Powerful Setup Wizard

* Please check that we support your make and model of printer, vinyl cutter or device. Not all these tools and features are available in each version of VinylMaster. Check online to compare each version. E&OE.

Extensive Tools & Features

VinylMaster incorporates the most advanced technologies to provide you with powerful design and layout tools meaning you can design and output the most amazing and visually stunning signage that you or your customers have ever seen!

3D Effects & Shading Tools VM XPT

VinylMaster Xpt comes with a suite of powerful and unique set of Shading tools designed to create and apply an infinite range of 3D Special Effects to Objects, Text, Images and Curves including Vector Effects for truly eye-popping signs and layouts. Above is just a tiny sample.

Import, Export & Publish to PDF/CMYK tif

VM XPT VM PRO

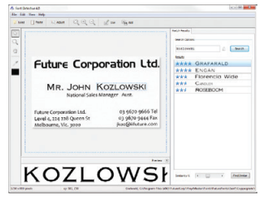
VinylMaster Xpt & Pro import all major image formats including bmp, gif, jp2, jpeg, png, tga and tif etc. and also ai, eps, pdf and ps. Plus you can export super high resolution pdf and tif files using Separation Profiles from VMX in CMYK for offset printers to print your artwork for business cards, posters and flyers etc.

The Vectorizer ALL VERSIONS

The Vectorizer is a specialist utility used to trace an image (bitmap). It does this by taking the image and tracing around its pixels to create an editable and perfectly scalable set of curves (paths) which can then be cut out with your Vinyl Cutter or Plotter. You can also scan directly from your scanner with the built-in TWAIN drivers.

Font Detective VM XPT

Font Detective is a specialist utility to find and match fonts. It is designed to rapidly compare a scanned-in sample of a particular font against any fonts on your computer. It has been completely redesigned to be much easier to use with built-in OCR and now works with full-color artwork and blocks of text for the most accurate of Font Finding!



Mask Editor VM XPT

The Mask Editor is a specialist utility used to professionally remove the background from images like from this Parrot. It does this by providing you with tools inc. a Magic Brush, Fatline, Eraser and Flood Fill. Plus it also has special effects such as Blur, Interactive Transparency and Vignettes etc.

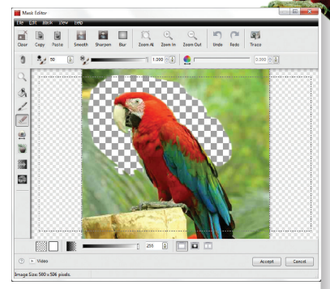


Image Tools & Features VM XPT VM PRO

VinylMaster also comes with specialist image tools that include image filters, special effects and full image editing such as Crop, Blur, Reduce Colors and Resample, along with a dedicated Image Adjustment Lab to adjust each Color Channel & Gamma.

Text Tools & Features VM XPT VM PRO

VinylMaster Xpt and Pro come with a large suite of Text Tools and Features and have 6 types of text inc. Artistic, Paragraph, Vertical, International, Arc and Path Text. Coupled with the large range of Special Effects and Layout tools you can design an infinite range of professional decals, signs and posters quickly and easily.

ALL VERSIONS

ALL VERSIONS

Each version of VinylMaster* comes packed with a large and impressive suite of Extras which includes General Clipart, Road & Related Signs, Corporate Logos, High-Quality and typographically categorized Fonts along with a great selection of Textures which are perfect for creating additional effects and depth to your designs.

*Check online for details and quantities provided with each version.
