vinylmasterTM

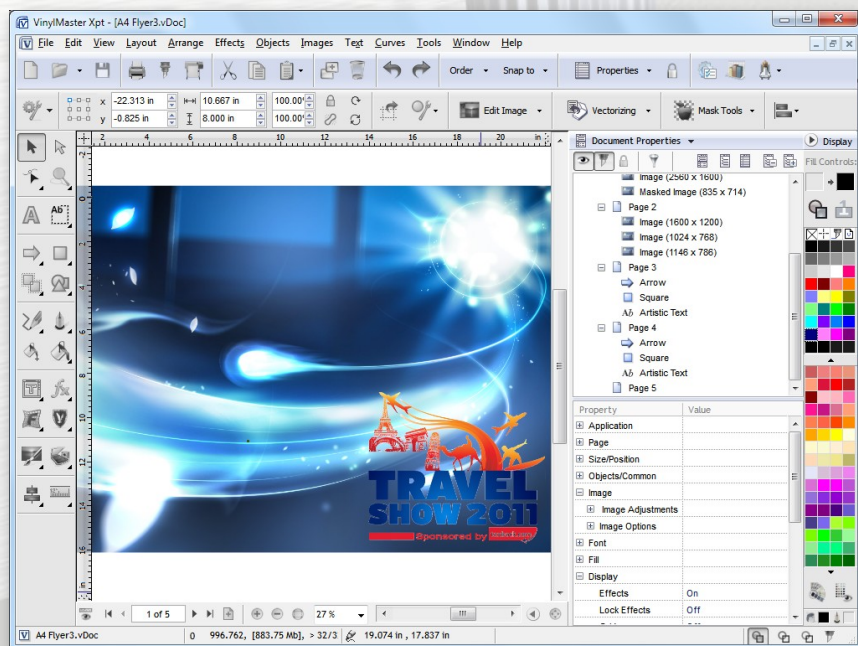

full featured signmaking software...

by Future Corporation...

Advanced GUI

VinylMaster is set out in a logical and easy to follow layout and uses a highly professional and contemporary Graphics User Interface (GUI) meaning that it's easy to use and to understand. Incorporating fully anti-aliased graphics for the sharpest and clearest on-screen experience possible. Always work in the highest quality view mode without waiting for the program to redraw. **Zero-wait state** provides instant feedback as you design no matter how large or complex the Project meaning that you never have to work in a pixelated draft or normal view mode...

Object Manager

The Object Manager lets you select and move objects from page to page along with the Z-order from a list. There's also a Page Thumbnails Viewer for visual and fast navigation, and when you're done you can just pop them out the way for later!

Property Inspector

VinylMaster's Property Inspector is a dynamic and editable list of all the Properties (settings/attributes) of the currently selected object(s), document, page and VinylMaster itself. This is an invaluable feature for ultra-fine control of your Projects.

Layout Tools & Features

Laying out your designs is a breeze in VinylMaster Xpt, Pro or Ltr which all come with an arsenal of align and distribution tools, dimensions, guides along with semi-transparent and adjustable rulers, plus step and repeat, tile and circle arrays. Also smart tools like Nudge and Smart Nudge and arithmetic and multi-unit edit boxes - just to name a few!

RIP, Print & Cut

Supporting
Hundreds
of Makes and
Models*

VinylMaster Xpt includes a full-featured **RIP** meaning that you can use all of VinylMaster's powerful design tools and features along with the program's ai, eps, pdf and postscript import tools and then RIP, Print and/or Cut these out with your Large Format Printer or Printer-Cutter.

The RIP comes with a **Media Profile Library** with hundreds of Color Profiles and full .icc support. VinylMaster also comes with a powerful **Contour Cutting** module and specialist tools meaning you can print from the one device and then cut from another! (VMX only)

Major Features of the VinylMaster RIP include:

- Simultaneous Ripping & Printing
- Multiple Multithreading CPUs
- Multitask Environment
- Job Queue
- Color Correction
- Soft Proof (Preflight)
- Nesting
- Optimal Packing
- Block Nesting (Media Length)
- vMedia format with full .icc support
- Tiling & Mirror
- Registration/Crop Marks
- RIP Spooler & Manager
- Spot Colors
- Step & Repeat
- Layout & Compose
- RIP, Print & Cut
- Manual Reposition Module
- White Channel & Under Base
- Full TCP/IP support

Vinyl Cutting

Over
2,500*
Vinyl Cutter
Drivers!

Each version of VinylMaster comes with a large set of specialist Cutfile tools and features along with an Engraving Module.

The **Cutfile Manager** takes your artwork and automatically separates each color and then presents it in a large preview window which is packed with specialist tools and features. The **Vinyl Spooler** then manages your Cutfiles and lets you arrange, nest and optimize these along with managing all your devices and their settings - and setting up a vinyl cutter has never been easier with our latest Setup Wizard.

Major Features of VinylMaster Cutting includes:

- Auto Color Separate (inc. vinyl)
- Auto Cut Selected
- Contour Cutting
- Cut By Color/Object
- Production Queue
- View by Size/Color/Date
- Dimensions (dynamically update)
- Nesting & Optimize (save media)
- Side-View Mode (for long jobs)
- 2,500+ Drivers inc. USB Cutters
- Merge Colors
- Preview (Preflight)
- Step & Repeat (Copies)
- Crop Tools
- Tile Bleed (Overlap)
- Registration Marks
- Speed-Weed™
- Weed-Boxes
- Simultaneous Cutting
- Powerful Setup Wizard

*Please check that we support your make and model of printer, vinyl cutter or device. Not all these tools and features are available in each version of VinylMaster. Check online to compare each version. E&OE.

Powerful Tools & Features

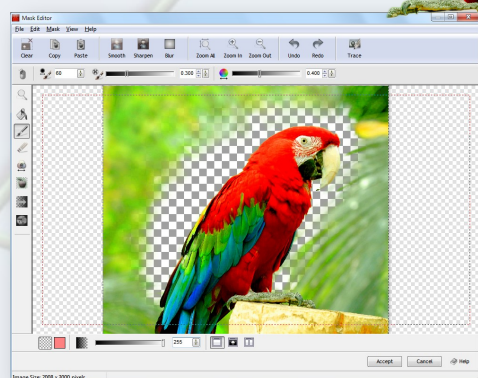

VinylMaster incorporates the most advanced technologies to provide you with powerful design and layout tools meaning you can design and output the most amazing and visually stunning signage that you've ever seen and create for yourself!

3D Effects & Shading Tools

VinylMaster Xpt comes with a Shading Effects Editor that is a powerful and unique set of specialist tools designed for you to create and apply an infinite range of Special Effects to Objects, Text, Images and Curves and even to Vector Effects! Allowing you to create the most eye-popping signs you've ever seen!! (VMX only)

The Mask Editor is a specialist utility used to professionally remove the background from images like from this Parrot. It does this by providing you with tools inc. a Magic Brush, Fatline, Eraser and Flood Fill etc. Plus it also has special effects such as Interactive Transparency and Vignettes etc. (VMX only)

Import & Export

VinylMaster Xpt & Pro import all the major Image formats including bmp, gif, jp2, jpeg, png, tga and tif etc. along with ai, eps, pdf and ps. Plus you can export super-high resolution pdf and image files from VMX...

Image Tools & Features

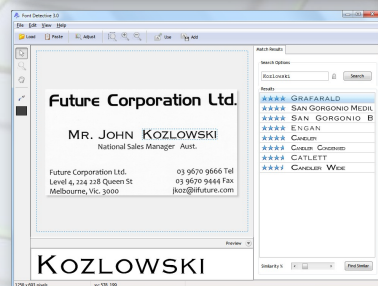

VinylMaster also comes with specialist image tools that include image filters, special effects and full image editing along with a dedicated Image Adjustment Lab to adjust each Color Channel etc.

Compatibility

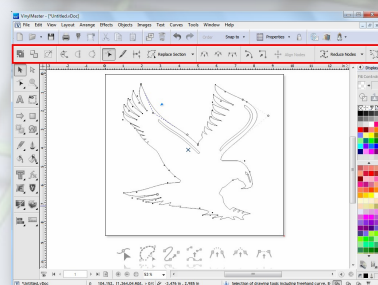

VinylMaster Xpt, Pro & Ltr all work with Windows 7, Vista and Xp in either 32 or 64 bit.

The Vectorizer is a specialist utility used to trace an image (bitmap). It does this by taking the image and tracing around its pixels to create an editable and perfectly scalable set of curves (paths) which can then be cut out with your Vinyl Cutter or Plotter. You can also scan directly from your scanner with VinylMaster.

Font Detective is a specialist utility to find and match fonts. It is designed to rapidly compare a scanned-in sample of a particular font against any fonts on your computer. It has been completely redesigned to be much easier to use with built-in OCR and now works with full-color artwork and blocks of text for the most accurate of Font Finding! (VMX only)

Each version of VinylMaster comes packed with **Powerful Curve tools** from simple and advanced node editing, to specialist shaping tools inc. common, stamp, punch and trim which is ideal to shape clipart. Xpt and Pro also have weld layers to automatically remove over-lapping sections of complex clipart and curve objects.
